TOWN BOARD REGULAR MEETING  
TUESDAY, SEPTEMBER 6, 2016**

Meeting was held at Town Hall, 420 Route 209, Huguenot, NY 12746

**Invocation by** Arthur Trovei (Participation is Optional)

**Attendance**

**Supervisor:** Gary Spears

**Councilmember's:** Alan Schock, Ken Smith, David Dean, Arthur Trovei

A Moment of Silence was held for Dennis Simmons and Bob Ritchie who were residents of Port Jervis and recently passed away.

**Public Hearing on Proposed Local Law No. 2 of 2016 (Held Open Since July 18, 2016) – A LOCAL LAW ADOPTING THE NEW YORK STATE UNIFIED SOLAR PERMIT FOR APPLICATIONS FOR SMALL SCALE, ROOF MOUNTED, RESIDENTIAL SOLAR GENERATING FACILITIES IN THE TOWN OF DEERPARK, ORANGE COUNTY, NEW YORK**

Attorney Glen Plotsky explained that the Public Notice was not required because this Proposed Local Law No. 2 of 2016 was read July 18, 2016 and has been held open until today for revision and discussion.

Public Comment: None

Councilman Trovei asked about the 23Kw change and Supervisor Spears spoke regarding the New York Standard Application, which allows a small grant with the 12Kw, that in their discussions they felt that on a larger home, that may not be sufficient. So, they passed up the grant money and went with the 23Kw. Councilman Schock thought the wording used would put more of a burden on the Planning Board by making subdivisions and it will be discussed under Proposed Local Law No. 3, next on the agenda.

**Public Hearing on Proposed Local Law No. 3 of 2016 (Held Open Since July 18, 2016) – A LOCAL LAW REGULATING SOLAR GENERATING FACILITIES IN THE TOWN OF DEERPARK, ORANGE COUNTY, NEW YORK**

Public Comment: None

Supervisor Spears pointed out that rooftop mounts under 23Kw has its own application, everything else will go to the Planning Board for review. Small scale (ground mount) will go to Planning Board for review, but the Planning Board has the option to forego the Public Hearing on a residential ground mount as long as all the setbacks are good. Councilman Dean referred to Section 8, Item B and asked who accommodates who. Supervisor Spears said they don't have to enforce it, but a new subdivision up on the hill above someone else should take into consideration where they set their lots and their subdivision and be mindful of their neighbors so they don't block the solar collectors already there. Councilman Dean thought the application of this might prove to be somewhat cumbersome. Discussion continued.

**Public Hearing Proposed “Cable Franchise Agreement” between the Town of Deerpark and Frontier Communications**

Town Clerk Florence T. Santini read the Public Notice of the proposed “Cable Franchise Agreement” between the Town of Deerpark and Frontier Communications and a copy is attached to the official minutes.

*Frontier Communications* local technical supervisor, network engineer and their regulatory person provided a visual presentation to introduce the proposal. In conclusion, they said they look forward to bringing competition, options and choice with an innovative video product offering from Frontier Communications to the residents and businesses in the Town of Deerpark. Everyone benefits from competition, which brings lower prices. (The proposed agreement and application materials are attached to the official minutes.) After municipal approval, they make their case to the Public Service Commission and they have to approve it as well.

**TOWN OF DEERPARK  
TOWN BOARD REGULAR MEETING  
TUESDAY, SEPTEMBER 6, 2016**

Discussion: Councilman Trovei asked them if they have future thoughts of updating fibers and they said absolutely. They said fibers are the way of the future. Typically any new subdivision going in, they will always go fiber first. They are looking in select areas now and building out slowly. This product of electronics described will enable them to do both. From their central office to the remote offices, the copper does restrict them, but they are providing service from their boxes up to 8,000 feet away. In Phase 1 and 2 in Deerpark, they will look at five cabins along Route 209 (the majority of it) and Route 42 (all of it). Supervisor Spears asked what percentage of Deerpark residents use Frontier and they don't have that number, but have a household count and said there are approximately 910 households in the town and they are based on census numbers. They hope to capture 30% in their first roll out...whether they currently have Frontier phones or not. The remote devices will provide video service to the rural areas. They won't be restricted for the more dense areas; it will be where their equipment is in place. Town Clerk Flo Santini asked how many towns and villages are involved in this. They are looking at 20-25 municipalities in Orange County initially. They have been in Goshen and they are moving ahead there. Councilman Trovei asked if they can reach areas where their competitor is not reaching already. He couldn't answer that without more specific information but he is local and will work with anybody regarding a specific area.

Public Comment: A person from the audience asked how far down Route 209 does their coverage go and the response was not far from Oakland Valley. There is a Frontier building in Cuddebackville and that building is being equipped ready for test and turn. The 8,000 feet availability is as the cable goes. They want to be the alternative cable in the region. They need to engage their customers. They will price competitively. Another person from the audience asked if they will just be in Deerpark, or also Mount Hope. He didn't think Mount Hope was in their initial list of 25 communities in Orange County. They expect it to be successful and they would look forward to expanding. Frontier offered to work with the customers if they are wondering if they will be covered. They haven't marketed it yet, but when they can, they will target those areas of town they can reach. They will present to Port Jervis also. Pretty much every cabinet that is in Deerpark will be overhauled including Route 209, Route 42, Lakewood Estates, Huguenot...Supervisor Spears asked if their new equipment would help improve the internet product also and Frontier's representative said it would. When the new equipment is put in, it will improve to 4 HD services per house and the HIS or internet experience will vastly improve with that new equipment. Attorney Glen Plotsky recommended the Board mark as exhibit correspondence received, from both Frontier Communications and Time Warner Cable. To the extent that there are any variations between the proposed franchises and the current already existing franchise agreement with Time Warner, Frontier would need to modify their proposed agreement to make it more even. One issue Time Warner raised was fairness, which Frontier says is not, the build out requirement. Time Warner argues that they were required to provide for 100% of the town within a certain period of time. The Frontier model is assuring that they will provide to 35% within two years, then they will expand depending on what the market bears. Time Warner says that is not fair. Coming back at that is they were going into an empty market. Time Warner already has 100%. We're now competing with an existing entity, so we shouldn't have the same obligation to guarantee a 100% until the market basically allows them to do the same. The federal government looked at this and said they don't have to match apples with apples. The Frontier representative added that they have to build out on a certain schedule. That's part of the level playing field requirement they have to pursue. It is not novel in New York State, he said, for the provider to come in and offer service in a limited geographic area. Their proposal is to eventually serve the entire community though they are starting out with 35% in the first two years. Based on how that goes, they will expand from there. He clarified that the build out would not be altered to match that of Time Warner Cable, but with provision of free service, the various public buildings ... they can do that and talk about insurances that are more comparable. Mr. Plotsky recommended they not adopt the franchise as it is proposed. They need to look at it more closely. Time Warner has commented that if the town doesn't require Frontier the same requirements, they will change their agreement. Mr. Plotsky wants to look at that charter, which he just saw that day. He also wants to see the current agreement and asking Frontier the same things virtually being asked from Time Warner. He would like to send the information to Charter. Councilman Trovei asked about free services to the town and Frontier responded they would like to offer the same free service provided by the incumbent. The incumbent provides service at a density rate of 20 dwelling units per linear mile. Frontier's approach is different and based on where they have their equipment. The location of their equipment may lend itself to the more rural population. They were asked to provide a map to the Supervisor with the highlighted service areas.

## **CABLE FRANCHISE AGREEMENT**

This nonexclusive Cable Franchise Agreement (hereinafter the "Franchise") is made and entered into effective on the \_\_\_\_ day of September 2016, by and between the Town of Deerpark, New York, ("Town") and Citizens Telecommunications of New York, Inc. d/b/a Frontier Communications of New York ("Frontier") a New York corporation.

### **RECITALS**

WHEREAS, pursuant to 16 CRR-NY 895.1, Frontier's technical ability, financial condition, and character were considered and approved at a public proceeding affording due process and in accordance with the Town's applicable code on September 6, 2016;

WHEREAS, the Town is authorized to grant and renew cable franchises for the installation, operation, and maintenance of cable television systems and otherwise regulate cable communications services within the Town boundaries by virtue of federal and state statutes, by the Town's police powers, by its authority over its public rights-of-way, and by other Town powers and authority;

WHEREAS, the Town and Frontier ("Parties") recognize that Frontier is the second cable provider to apply for a Franchise in the Town, and will be competing with a long standing incumbent, therefore, this franchise is specifically designed to promote such competition. Therefore, the parties agree that Frontier's plans for constructing and operating the cable television system were found adequate and feasible in accordance with the Town's applicable code, the rules and regulations of the NYSPSC, and the FCC;

WHEREAS, by resolution of the Town dated the 6<sup>th</sup> day of September 2016 ("Effective Date"), the Town has granted a non-exclusive cable television franchise to Frontier, and authorized the \_\_\_\_\_ to execute this Franchise Agreement with Frontier upon the terms hereinafter set forth;

WHEREAS, this Franchise Agreement complies with the franchise standards required by the New York State Public Service Commission (hereinafter "NYSPSC") and the Cable Consumer Protection Act of 1992 and are subject to the review and approval of the NYSPSC.

WHEREAS, Frontier desires to provide cable communications services and to construct, operate and maintain a cable television system within the Town; and,

WHEREAS, the Town, after due consideration hereby finds that it would serve the public interest of the citizens of the Town to approve granting Frontier this Franchise to construct, operate and maintain a cable television system within the Town subject to the terms and conditions hereinafter set forth.

A. Subject to the lawful exercise of the police power heretofore or hereafter granted to the Town, Frontier shall have the right to construct, operate, and maintain, in, on, along and under the Streets and Public Rights of Way of the Service Area of the Town, wires, cables, remote terminal cabinets, underground conduits, manholes, and other conductors and figures necessary for the maintenance and operation in the Town of a Cable System at such locations designated by Frontier. Except where Frontier is unable to obtain required easements. Frontier may extend cable service to any Qualified Living Unit within the Service Area that Frontier chooses to construct to, upon the request of a potential subscriber at its then-prevailing installation charge for such service. An activated service area is a geographical location or subdivision in which Frontier is already providing cable services to Qualified Living Units.

B. The Franchise granted herein will take effect and be in full force from and after final passage by the Town, subject to the acceptance provided in paragraph A above and shall continue in full force and effect throughout the Term.

#### **Section 5. Conditions on use of Streets and Roads**

Frontier shall install and maintain its wire, cables, fixtures, and other equipment in accordance with applicable Town Code, as amended, any building codes, or other construction standards imposed by the Town, and the applicable sections of the National Electric Safety Code as revised during the Term and in such manner as shall not interfere with any installations of the Town or of any public utility serving the Town.

E. Temporary Moving of Wires. Frontier shall, on the request of any Person holding a building-moving permit issued by the Town, temporarily relocate Facilities to permit the moving of buildings, water, effluent or sewer lines, or Streets and/or Public Rights of Way. The expense of such relocation shall be paid by the Person requesting the same, and Frontier shall have the authority to require such payment. Frontier shall be given not less than five (5) business days' notice to arrange for such relocation.

F. Inspection. The Town shall have the right to inspect all construction or installation work performed in, over, under and upon the Streets, subject to the provisions of this Franchise and make such inspections as it shall find necessary to insure compliance with the terms of this Franchise.

G. Location of Distribution Lines-Poles/Underground Cable. No poles or structures shall be erected by Frontier without prior approval of the Town, through its established permit procedure pursuant applicable Town Code, as amended. Location of any pole, or structure shall be removed or modified by Frontier whenever the Town determines that the public health, safety and welfare would be negatively affected. If the Town requires the removal or relocation of part of the Cable Television System, such removal or relocation shall be solely at Frontier's expense.

H. Moving of Frontier Property. EXHIBIT A  
SERVICE AVAILABILITY

(1) Initial Build out. No later than the second anniversary of the Effective Date of this Franchise, Frontier shall be capable of serving a minimum of thirty-five percent (35%) of the Town's households with Cable Service, provided, however, Frontier will make its best efforts to complete such deployment within a shorter period of time. This initial minimum build-out commitment shall include a significant number of households below the median income in the Town. Town shall provide detailed maps of such areas. Nothing in this Franchise shall restrict Frontier from serving additional households in the Town with Cable Service.

(2) Periodic Meetings. In order to permit the Town to monitor and enforce the provisions of this section and other provisions of this Franchise, Frontier shall, upon demand, promptly make available to the Town maps and other documentation showing exactly where within the Town Frontier is currently providing Cable Service. Frontier shall meet with the Town at least annually to demonstrate Frontier's compliance with the provisions of this section concerning the deployment of Cable Services in the Town including, by way of example, the provision of this section in which Frontier commits that a significant portion of its initial investment will be targeted to areas below the median income within the Town, and the provisions of this section that prohibit discrimination in the deployment of Cable Services. In order to permit the Town to monitor and enforce the provisions of this section and other provisions of this Franchise Ordinance, Frontier shall, commencing October 2016, and continuing throughout the term of this Franchise, meet at least annually with the Town and make available the Town the following information:

(a) The total number of Qualified Living Units throughout the Town;

(b) A list of the public buildings and educational institutions capable of receiving Cable Service from Frontier.

(3) Additional Build-Out Based on Market Success. If, at any annual meeting, including any interim meeting prior to the second anniversary of the Effective Date of this Franchise, Frontier is actually serving thirty (30.0%) of the Qualified Living Units, then Frontier agrees the minimum build-out commitment shall increase to include all of the households then capable of receiving Cable Service plus an additional fifteen (15%) of the total households in the Town if less than seventy-five percent (75%) of households are capable of receiving Cable Service or an additional five percent (5%) if seventy-five (75%) or more households are capable of receiving Cable Service, which Frontier agrees to serve within two (2) years from the quarterly meeting; provided, however, Frontier shall make its best efforts to complete such deployment within a shorter period of time. For example, if, at a meeting with the Town, Frontier shows that it is capable of serving sixty percent (60%) of the households in the Town with Cable Service and is actually serving thirty percent (30%) of those households with Cable Service, then Frontier will agree to serve an additional fifteen percent (15%) of the total households in the Town no later than

two (2) years after that meeting (a total of 75% of the total households). This additional build-out based on market success shall continue until substantially every Qualified Living Unit in the Town is served.

Historian's Report to Town Board

I. Historian/Community Outreach

A. Busy Season of Programs

1. May 22 – Frank Salvati presented a lecture at the School House entitled **“Red Cloud’s War.”** We also made this the kick off for our **“Ride into History” Deerpark Road Rally**, a summer long hunt for 25 locations in our town.
2. June 12 – Joe Senese gave a talk in the Grange Building about **the O&W Railroad** that ran through our town. We also dedicated our newest **historical marker at “Valley Junction Station”** in Godeffroy, made possible by the William G. Pomeroy Foundation.
3. June 14 – I attended a **social media workshop** in Goshen that was sponsored by the office of the Orange County Historian, Johanna Yaun. I’m doing my best to keep up with local history related items on the museum Facebook page.
4. June 18 – The museum set up displays at the Port Jervis Arts Council’s **“Art and History Day”** at the Drew Methodist Church, along with many other area historical societies.
5. July 23 – **Joseph Brant Bus Tour** was held and there was a significant increase in guests from out of town. We also dedicated the new **“Legends and Lore” historical marker** on Neversink Drive, which tells the legend of Joseph Brant and the Painted Aprons Story. This marker, too, was made possible because of a grant we received from the William G. Pomeroy Foundation.
6. July 28 – **D&HTHC quarterly meeting** was held in High Falls, NY. The D&H Society there just acquired the 1797 De Puy House. We were given a tour that included the cellar through to the attic. A wonderful stone house/tavern which the society is certainly proud.
7. Aug. 11 – The museum hosted a **“Star Party”** at Harriet Space Park. Dr. Istone, an engineering professor from SUNY Orange, came and discussed telescopes and backyard astronomy. Our hope was to have a clear sky to observe the stars and the Persied Meteor Showers which were at their peak that evening. However, we had quite a thunder storm which was a show unto itself. We had 30 people show up despite the weather.
8. Aug. 21 – **Road Rally Finale Picnic** - Our picnic was held at the Harriet Space Park. Rally participants enjoyed a band and lunch provided by the Piranha Grill. Our hope for this summer long program was to get people out and about to take notice of some of the many places and sights in Deerpark. All proceeds went to the Friends of the Grange Fund. The cash prizes we offered were donated back to the Grange. We earned \$900.00. This program was a success beyond our expectations and there has been many requests to please stage another rally next summer.
9. Sept. 12 – **The D.A.R. Hudson Valley Pilgrimage** will come to the school house for a tour and history talk. Forty or more members from all over the Hudson Valley are coming to the area for a meeting and luncheon.

10. Sept. 15 – 17 – Norma Schadt and I will be in Syracuse for the **APHNYS/Family History Conference**.

11. Sept. 18 – **The Open House** will be held with the theme "Deerpark's Attic." We will feature a display of hats through time, a petting zoo, displays, the Pirhana Grill and baked goods, an auctioneer/appraiser will be on hand to appraise items that residents are encouraged to bring in and The Broome St. Drum and Fife. An historical skit will be performed on the stage of the Grange entitled "Stand Hold." It will depict events from the Brant attack of October 1778. There will also be an unveiling of the newest "Deerest Deerpark" Deer which has been painted with scenes from Deerpark by local artist Joan Kehlenbeck. This is a life size deer fiberglass form which was donated by Orange County and Orange County Tourism.

12. Despite the very dry summer, I've managed to keep Deerpark planters alive and blooming and look forward to adding mums for the autumn.

Again, we want to thank the Highway Department for all that they do for us, usually at a moment's notice.

The remainder of the report will be turned over to Norma Schadt, who will be speaking about the progress at the Neversink Grange Building.

Respectfully submitted.

September 6, 2016 Town Board Meeting

Presented by Sue Breyer and Norma Schadt

Grants for making the Grange Building ADA compliant have been studied.

Those available through NYS Historical Preservations in the amounts of \$1500.00-\$3000.00 were all grants for studies and reports. There were Technical Assistance Grants. None were available for bricks & mortar type of work.

We would like to approach Senator Bonacic's office to apply for a SAM Grant, moneys made available for capital improvements through the State and Municipal Facilities Program. The enacted Capital Projects (S.20004-C) for the 2016 state fiscal year appropriated a total of \$1.13 billion for the State and Municipal Facilities Program, including a new appropriation of \$385 million and re-appropriation of \$746 million.

This grant would be written for the following improvements to the Grange Building; 1.) a handicapped accessible ramp built along the side of the building; 2.) rebuild or replace the front steps; 3.) build a handicapped accessible bathroom on the main floor using some of the entry hall space. (this space is directly over the existing bathrooms in the basement--ease of plumbing)

Note: The Town of Lumberland applied for and received two \$50,000.00 grants for capital improvements for their buildings.

## **Grange Report**

### **Work completed by Museum members in August**

September 6, 2016

Town Board Meeting

1. The basement was organized & swept
2. The stage was cleared of all items stored there. The items were moved to the basement--(book case, metal table, trunks, shoe maker machine, racks, mannequins)
3. The stage ceiling was patched, cleaned & painted.
4. The stage wood work was painted and the floor was washed. The stage is ready for the Open House play "Stand! Hold!"
5. The area behind the stage was cleared out (tables & game boards moved to basement) and the debris was swept up.
6. The stair well leading off of the stage to the kitchen area in the basement was cleared of misc. boards and swept. It is now usable.
7. The cement stair well in the rear of the building was swept out.
8. Six ceiling tiles are ready to be replaced. This will be done on Thursday. There were tiles in the basement which were left over from the time when the building was owned by the Grange.
9. The azalea bush by front door has been trimmed out.
10. The brambles by the side steps were cleared away.
11. There will be a work day on Thursday when the entire upstairs of the Grange will be cleaned and areas set up for the Open House on Sept. 18th.

## **Additional Work Suggested**

**Report September 6, 2016**

**Town Board Meeting, September 6, 2016**

1. Soffits & gutters
2. Install door in rear steps area in order to close the building. Right now, the doorway is open and the steps are open to the elements. The door at the base of the steps that leads into the kitchen is an inside door.
3. Paint new work on new shed roof.
4. Repair rotted wood at side entrance\*
5. Enclose the gable area over side door -wood is in the basement\*
6. Close off the window over the well housing. It leaks like a waterfall during a rain storm.
7. New side window
8. Build up window wells around the basement windows and backfill so that water runs away from the building.

\*The wood (shiplap) for projects 4 & 5 is in the basement. Left over from when the Grange owned the building.
